RESEARCH  
INTERESTS

**Theoretical and Mathematical Physics:** Quantum field theory, Integrability in classical and quantum systems and field theories, Dynamical systems, Heat transport, Open quantum systems, Random matrix theory, Nonlinear dynamics & Chaos.

RESEARCH  
EXPERIENCE

- Two dimensional field theory, Partial differential equations, Poisson-Lie algebras, Inverse scattering, KdV equation, Lax pairs,  $r$ -matrices, Hamiltonian formulation, Integrability, Invariant tori and action-angle variables, Exact-WKB method, Energy-level statistics, Quantum Langevin equations, Non-equilibrium Green's functions, OTOC.

CONFERENCES  
AND SCHOOLS

- *9th Indian Statistical Physics Community Meeting*, 3-5 April, 2024, International Center for Theoretical Sciences, Bangalore.
- *Stability of quantum matter in and out of equilibrium at various scales*, 15-26 January, 2024, International Center for Theoretical Sciences, Bangalore.
- *8th Indian Statistical Physics Community Meeting*, 1-3 February, 2023, International Center for Theoretical Sciences, Bangalore.
- *Conference on Nonlinear Systems and Dynamics* (Online), 17-22 December, 2021, SASTRA Deemed University, Thanjavur.
- *Bangalore School on Statistical Physics - XII* (Online), 28 June-9 July, 2021, International Center for Theoretical Sciences, Bangalore.
- *Lecture series on Basics of nonlinear integrable systems and their applications* (Online), 7-17 April, 2021, SASTRA Deemed University, Thanjavur.
- *XXXIII SERB Main school-Theoretical High Energy Physics*, 7-26 December, 2019, S.G.T.B. Khalsa College, University of Delhi.
- *Young Researchers Integrability School and Workshop: A modern primer for 2D CFT*, 10-16 February, 2019, Erwin Schrödinger international Institute of Mathematics and Physics, Vienna.
- *Conference on Nonlinear Systems and Dynamics*, 11-14 October, 2018, Jawaharlal Nehru University - New Delhi.
- *Integrable systems in Mathematics, Condensed Matter and Statistical Physics*, 16 July-10 August, 2018, International Center for Theoretical Sciences, Bangalore.

TALKS AND  
POSTERS

- Talk, *Heat transport through an open coupled scalar field theory hosting stability-to-instability transition*, 9th Indian Statistical Physics Community Meeting, April 05, 2024, International Center for Theoretical Sciences, Bangalore.
- Talk, *Dynamical stability of a coupled scalar field theory: Different perspectives*, 8th Indian Statistical Physics Community Meeting, February 03, 2023, International Center for Theoretical Sciences, Bangalore.
- Talk, *Dynamics and integrability of the Rajeev-Ranken model*, Chennai Strings Meeting, December 15, 2020, Institute of Mathematical Sciences (Webinar).
- Talk, *Integrability of a mechanical reduction of a dual to the principal chiral model*, National Symposium on Theoretical High Energy Physics, December 20, 2019, SGTB Khalsa College, University of Delhi.
- CMI Seminar, *On the Hamiltonian formulation and integrability of the Rajeev-Ranken model*, Chennai Mathematical Institute, March 20, 2019, Chennai.
- Poster presentation, *Hamiltonian dynamics and integrability of the Rajeev-Ranken model*, Conference on Nonlinear Systems and Dynamics, 11-14 October, 2018, Jawaharlal Nehru University, New Delhi.
- Poster presentation, *Hamiltonian dynamics and integrability of the Rajeev-Ranken model*, Integrable systems in Mathematics, Condensed matter and Statistical Physics, 16 July-10 August, 2018, International Center for Theoretical Sciences, Bangalore.
- CMI Seminar, *Some features of a 1+1 dimensional field theory dual to the Principal Chiral model*, Chennai Mathematical Institute, October 3, 2017, Chennai.
